

## WISH LIST

The below items are things we frequently need to best serve the families in our community. If you are looking to have a supply drive at work, collect for a holiday party or looking for a way to give back we sincerely appreciate your support!

*These items must be new and in their original packaging for safety. We do occasionally accept very lightly used clothing and other items as well but please call for more information on this prior to any donations as we are limited in what we are able to accept. We do not accept used stuffed animals.*

For more information contact Brooke Hendrickx at [BrookeH@foreverychild.org](mailto:BrookeH@foreverychild.org)

The following items are used as incentives for our families. Caregivers attend classes, participate in one-on-one sessions and other educational opportunities. As they attend these activities to improve their parenting skills and the well-being of their child they earn points. With those points parents can get items they need but can't always afford. Donation of these items allow us to provide parents the support and education they need while also getting them the concrete supports necessary to be successful.
